

051213 ARCHITECTURAL EXPOSED STRUCTURAL METAL

PART 1: GENERAL

1.01 QUALITY CONTROL

- A. Provide exposed structural components that will not corrode or need preventive maintenance.

PART 2: PRODUCTS

2.01 GENERAL

- A. All exposed hot dipped galvanized structural steel.

PART 3: EXECUTION

3.01 INSTALLATION

- A. Exposed hot dipped galvanized structural steel will not be site welded at assembly. Use bolt systems, slip joint fittings, or combination of both. Field measure all pieces for fabrication. Weld up prior to hot dip galvanizing process. Install/assemble using bolts or screws.
- B. Cold galvanizing on exterior metals not allowed.
